## The Best Thing Up to Date.

Dear Bulletin: In quoting the fol-owing in this (Friday's) Bulletin: This spring fever is queer, for it inspires some men to write poetry and others to go into the chicken busand others to go into the chicken bus-iness," I would mention, if permitted, before it is too late, that "this spring fever," when coddled, is the best thing (aside from the nomination of Mr. Rooseveit), up to date. When it catch-es, you and holds you and you've nothing else to Go, "Spring fever" beats a salary and money that is due, No doctor with his wisdom or with to doctor with his wisdom or with is little pills, can rob you of its com-ofts or scare you with his bills. It disordered stomach, or ast grabs and takes possession of all and feel all worn out. lust grabs and takes possession of all self-ceritered force and makes the days a blessing and life a running course of the most delicious languor that is possible to name, and you sleep and cat and eat and sleep, and get there lust the same. It seems to the "old man" in all soberness from every point of view, that when old age means undigested and fermenting food and foul gases: take the everse bile from business and "your uncle" is just through, that he would shake this fair old earth and be content to leave it, if he could wipe his weeping eyes and

## The Third Term.

Mr. Editor: "In one of your editorial notes on Saturday you said: "As great a logician as Loman Abbott is laving the time of his life explaining when a third term is not a third term."

In solving a problem in the propor-tions, we are first told by the arith-metics to select one of the quantities for a third term.

Now, it cannot be disputed that both "Billy" Taft and "Tedgy" Roosevelt are quantities, but, when we study the fine proportions of Taft, it would be well, in the interest of fair play, first to select Billy for a sectual term; for that would be following the joing-established rule in such a case in politics, and it would answer all our
